

Which statement is not correct?

*All references listed in the bibliography at the end of an article...*

+3

- A** Are cited at least once in the article
- B** Only come from scholarly articles
- C** Were read by the authors of the article
- D** Were published before the article in question

Answer: B. In some disciplines, a specific section of the bibliography can be used to list sources of interest not cited in the body of the text.
